

UNITED STATES GOVERNMENT

SECRET*Memorandum*

TO : C/GSD

DATE: 19 April 1965

FROM : DAD/S&D

SUBJECT:

25X1 This [] keeps coming up and coming up and coming 25X1
up and coming up. The point is that we have all agreed that it ought to be
completely reworked; we have agreed that the work ought to be done []
we have also agreed that it ought to be different than it is now. It remains for
DAD/IO to determine what capability it must have and when that is done we
should then proceed to determine what sort of an equipment configuration will
do that job. When we know what we want to do then present this to PRB for
approval. The ball rests right now in the DAD/IO court.
